Summary

I am currently studying Electronics and Computer Engineering at Sreenidhi Institute of Science and Technology. During my time here, I have actively participated in various team projects and taken on the role of a mentor, leading teams of 6-9 members on multiple projects.

I have worked on projects in domains such as waste segmentation, manufacturing, and IoT. My experience includes working with various sensors like ultrasonic, IR, and PIR sensors, as well as modules such as Bluetooth, camera, and GSM modules. In addition to my electronics projects, I have also worked on software projects, including web development, with projects such as a student portfolio website and a facility management website.

Furthermore, I have experience working as a member of designing and content writing teams for creative writing, especially for posters. I also served as the Deputy Head for workshops at the Roboveda event, where I gained valuable leadership and organizational skills.

Experience

Deputy head
The Robotics Club-SNIST
Nov 2023 - Present (7 months)
I worked as deputy head for workshops at roboveda 23

Mentor
The Robotics Club-SNIST
May 2023 - Present (1 year 1 month)

Member
The Robotics Club-SNIST
Feb 2022 - Present (2 years 4 months)

Education

Sreenidhi Institute of Science and Technology
Bachelor of Technology, Electronic and computer Engineering
2021 - 2025

Akshara junior college
Intermediate
2018 - 2020

Sri Chaitanya techno school, kompally
10th grade

Skills

Communication • Presentations • Microsoft Word • Embedded Systems • Embedded C • Adurino •
Adurino ide • Sensors • Leadership • Event Management
